

The Mizuno Cross Court Classic

TIE BREAKING PROCEDURES – SATURDAY Pool Play Only

Playoff Games will consist of 1 set to 15 (no cap)

If there are more teams tied for the Gold bracket than there are positions, the tied teams must have a playoff game. Teams shall not be eliminated based on set or point differentials.

No playoff game will be played if teams tied both advance to the gold bracket or neither team advances to the gold bracket. Position will be determined head to head.

Playoff Schedule

- All 2 way ties - #1 team will be the team which won the pool play match between the 2 tied teams, even if there is an opportunity to advance to the gold bracket (rationale: the teams that are tied have already determined the better team through play)
- 3 way tie for 2 positions in the Gold Bracket
Seed teams based on set % then point % (if tied by sets). 1st seed will be 1st in the pool and will officiate the tie breaking set. 2nd seed plays 3rd seed. Winner advances as 2nd in the pool
- 3 way tie for 1 position in Gold Bracket
Seed teams based on set % then point % (if tied by sets) for all 3 teams. 3rd seed plays 2nd seed. Winner plays 1st seed. Winner advances.

Any situation that is not addressed above will follow USAV guidelines.

Tie Breaking Procedures – Sunday Pools Only

There will be NO playoffs if a tie occurs in pools played on Sunday. It will be determined as follows:

- Set differential
- Point differential
